

PROTITE

MOULD DEFENDER

Paint Additive - Tropical Strength

The mould and mildew protection for all indoor and outdoor painting, staining, grouting and mortar applications.

A powerful long lasting mould inhibitor (when added to an existing product e.g. paint) which inhibits the unsightly growth of mould on the surface it is applied to.

Mould Defender forms an enduring film that will not change the look or feel of the substrate to which it is applied.

Stops mould growth to the areas it is used -
Perfect for paint to be used in bathrooms, kitchens and laundries

Available in 20ml, 50ml and 75ml

WHY USE MOULD DEFENDER...

- Easy to add to paint, mortar, grout, adhesives and oils
- Suitable for 4L, 10L and 15L paint
- Perfect for paint used in wet areas
