Density:	600kgs/m ³ (approx.)
Glue Bond:	“C” Bond Urea Formaldehyde
Formaldehyde:	Emission “E0”
Applications:	Furniture grade applications with emphasis upon a feature edge including tables, desks, benches, decorative partitions, etc.

PRODUCT DESCRIPTION

Premium AB plywood has a high-grade face and a reasonable back giving a consistent and uniform surface. Multiply is a premium quality, furniture grade panel made with high grade 1.5mm core veneers, creating an even and aesthetic edge with a white/ clear glue line. Suitable for joinery with a face that is typically consistent and uniform, exhibiting a warm, wood appearance suitable for clear staining.

Finishing

In semi exposed exterior applications, the product must be adequately protected by the use of a suitable water based, exterior paint or stain on both sides of the sheet & edges, irrespective of whether the sides are exposed to the weather or not. It's recommended to contact a reputable paint supplier and follow the manufacturer's instructions. Do not use oil-based products on this plywood as oil-based paints or stains may penetrate the surface veneer of the plywood and react with adhesives that bond the core veneers together. No warranty or guarantee is offered by Plywood & Panel Supplies Pty Ltd (PPS) if oil-based paint or stain has been applied to the plywood. This plywood is not suitable for use in the manufacture of doors and no warranty/ guarantee is offered by PPS if this plywood is utilised in any application associated with the manufacture of doors.
