### PRODUCT DESCRIPTION

Medium Density Fibreboard (MDF), a compressed wood particle fibreboard that is suitable for interior use or one-off exterior use applications. For applications involving high humidity or damp conditions MDF Moisture Resistant is better suited.

*\* Australian manufactured MDF is slightly oversized such as 2420 x 1213mm or 3630 x 1213mm and may change with a change in manufacturer. Please measure exact width of sheets for setting out wall frames and if there are changes in the colour of the MDF this may result in a change in size such as 2415 x 1207mm.*
